

**GLENN COUNTY OFFICE OF EMERGENCY SERVICES**  
**RAPID NOTIFY CELL PHONE AND UNLISTED TELEPHONE NUMBER**  
**REGISTRATION FORM**

**Notifying Residents & Businesses in Times of Emergency**

To improve public safety and increase coordination throughout the region, Glenn County has recently adopted a Reverse 9-1-1 community notification system. The Rapid Notify System allows the county to send telephone notifications to residents and businesses within an area impacted or threatened by an emergency.

The system utilizes a telephone database of listed land-line telephones. If a call is picked up by an answering machine, Rapid Notify will leave a voice message. If the telephone is busy or does not answer, the system will redial that number up to three times in an attempt to deliver the message.

If you want to be notified of emergencies by cell phone or if you have an unlisted Land-Line telephone please complete this registration form.

**CAUTION: While the County's Rapid Notify System is considered effective and efficient, you should not wait for or rely exclusively on a mass notification system call for evacuation directives. If you think you are in danger, you should evacuate immediately. If you are directed to evacuate by emergency personnel, you should follow their direction.**

**By submitting this registry, I give permission to the County of Glenn to add my unlisted/unpublished telephone or cell phone number into the County of Glenn's Rapid Notify database.**

**The County of Glenn will not share or distribute personal information gathered by this form and will use it solely for the purpose of providing emergency notifications.**
